even away every Saturday.  
IF YOU ARE INVITED,  
FRANK BARBER, PROP.

#### BOLTON

Snow and then more snow seems to be the March program as well as in previous months. Just as the town fathers had their minds settled comfortably to the fact that the bugbear of shoveling and opening snow-blocked roads was past for this season, along came another very unwelcome snow and wind storm Saturday. The bulk of snow did not nearly equal that of many of the previous storms, but the amount of wind which accompanied it made it tear through the air like a madman in pursuit of wildlife; it would settle a second as if for breath and then off again harder than ever. Sunday the wind was still blowing, but all of the snow was so beaten and hardened that the air was free of it.

Monday P. H. Strome, first selectman, had men out opening roads. No mail was received at the local office Saturday. Bolton P. O. patrons have no complaints to offer against the

accommodating mail carrier, George Merritt, from Andover; but the mail service is not as good as the Center as previously, as under the old plan a carrier could often walk the two miles from Bolton depot in bad weather and road conditions, a carrier has to make a 25-mile trip when a short one could be covered.

Prof. and Mrs. S. M. Alvord and son have returned to Hartford after a week spent in town.

Rev. J. M. Von Deck of Staffordville recently visited his daughter, Mrs. Harold Lee.

Miss Olive Hutchinson, lecturer of Bolton grange, has arranged a poverty social with special program for the meeting of the grange Saturday evening.

#### HANOVER

Students from Hanover at the Norwich Free Academy have been having a hard time getting back and forth the last three weeks. One day they had to walk most of the way home from Greenville. Since then they have either had to stay in Norwich all week or stay at home entirely, as it has been impossible to get through until this week.

Mr. and Mrs. Norman Standish spent the week end in New York.

## DANIELSON AND PUTNAM NEWS

### DANIELSON

There are some citizens of Brooklyn who are interested to know just why the Lord's Day league should reach out a long arm from its offices in the city of Boston, to serve a warning upon the people of a town in the neighboring town, against its place of business being open Sunday.

If the laws of the state of Connecticut are being violated, there certainly is authority enough inside of this state's border to see that its laws are enforced without the league "putting in," as these Brooklyn men who are referred to see the situation.

Their contention is that if Mr. Gilbert is to be obligated to keep his place of business closed on Sunday, that the same should be required of other Brooklyn storekeepers and dealers who make a regular practice of doing a Sunday business, and they purpose to see to it that all are served and treated alike in case any effort is made to select Mr. Gilbert or discriminate treatment.

Stores keep open on the Sabbath in East Brooklyn and at West Wausgan, which is in the town of Brooklyn, as well as at Brooklyn village. The selection of Mr. Gilbert as a special object of attack while other storekeepers have not received any similar warning, so far as could be learned on Wednesday, is puzzling as is also the reason for the warning coming to him through what would be considered an irregular channel instead of from Brooklyn's own officials, who have power to do everything—and more—in this case than could the Lord's Day league.

First Selectman John A. Gilbert has received a petition asking for a special town meeting to act upon the matter of appropriating a certain sum of money for the erection of a new school building at Goodyear, and the selectmen of the town have arranged to call the meeting for March 16.

The petition is signed by practically all of the members of the town school committee and by considerable number of well known citizens. This special meeting will be one of the most important that the town has recorded in years. The matter of providing adequate school facilities for Goodyear is a pressing one, and if the town is to keep pace with the rapid growth of Goodyear in providing school accommodations for the children of school age that are now here and that will pour in there by October, when the new mill will be completed, providing to provide for a suitable building must be taken at once.

The Goodyear company stands to contribute something like \$25,000 to erect a new school building, a cost approximately \$100,000. A great majority of the citizens see in this open-handedness of the big corporation that fine spirit of cooperation that should be the means of growth and the company going far on the road of prosperity together in the years to come. Killingly has had its opportunities to grow in the past and has turned them down, and at least one generation has heard the needless mourning that has followed. Today Killingly has another and greater chance to develop in greater degree than any town hereabouts. Boasting along the school building program at Goodyear is the first step on this road to prosperity. The company offers to pay 25 per cent of the cost of the building, take the present school building off the hands of the town at what it cost to build the school and to donate a fine site for the new building.

Members of C company, State guard, are very much interested in the announcement that they are to go into camp at Niantic July 29-24, in accordance with an order of the Military Emergency card. This is the first and probably the last week's encampment for C company as a State guard unit, as it is expected that the National guard will be re-organized late this coming summer. Early next fall will supercede the State guard, which will be mustered out soon after the encampment period mentioned.

Captain F. O. Arrington of C company stated on Wednesday that he can take a few more recruits if the call at once, so as to get some military training before the time comes for going into camp in July.

That the world is growing smaller all the time, although this is not being taught to the geography classes, is attested by the fact that Silvio Maynard, who is stationed at the American consulate in Cairo, Egypt, has sent to his parents, Mr. and Mrs. Philip S. Maynard of High street, a clipping from the Egyptian Times, published in Cairo, relative to a dress made in New Orleans some months ago by W. Irving Bullard of this town before the World Cotton Congress.

The address evidently was highly interesting to those Egyptians who are deeply interested in cotton production, and the article speaks particularly of the points Mr. Bullard made to combining the cotton growing countries of the world into a congress that, in a general way, might be compared to the league of nations.

Mr. Maynard writes that he is in good health and enjoying life in Cairo, where he expects to remain at least until fall and may not come home for another year.

"Wingfoot" has been selected as the name for the California town, almost within the shadow of Los Angeles, where the Goodyear Tire and Rubber company is fast rushing to completion the great plants in which it is to produce rubber and in turn, tires for the western trade. The name will be officially adopted as soon as arrangements can be made with the postal authorities at Washington. "Wingfoot" is the Goodyear trade mark, familiar throughout the nation and even in other lands, and especially here in Killingly, where there are hundreds of members of the Wingfoot clan as the many thousands of Goodyear employees are known at the company's plants throughout the country.

Local journeymen barbers made known Wednesday the nature of a set of demands that they have formulated for presentation to the master barbers here.

The first in the list of these demands is that the barbers be paid \$1.00 per week, with a 50-50 division of the money taken in after a journeyman has earned \$32 in a week. In other words, if a barber turns over \$40 a week of work, his salary will be \$20 plus \$4 or \$24 a week.

Whether or not the master barbers will grant the demands remains to be seen. One who is properly called Wednesday morning that he is willing to grant some concessions, but not all that have been asked for by the journeymen.

By unanimous vote, a special borough meeting Wednesday authorized the wardens of the town of Goodyear to contest before the Public Utilities commission the proposed increase in water rates by the Crystal Water company and appropriated \$1,000 to meet the contest. Attorney E. R. Back called the attention of the meeting to the fact that in any event the borough will learn much through the investigation about the Crystal Water company as to the value of the plant, the company's income, its net earnings and other facts of importance.

The resolution as passed by the meeting gives the borough officials full authority to proceed in the matter in cooperation with the Brooklyn fire district.

Sagar Elmas, an Albanian, is held at the police station here to answer in court today (Thursday) a charge of intent to kill. At Goodyear Wednesday, Elmas struck Martin Littlefair, 20, over the head with an iron bar and rendered him unconscious. Littlefair has a scalp wound four inches in length. He was attended by Dr. George M. Burroughs and then removed to his home in Danielson. His skull is not fractured. The 24 inches in thickness is being harvested at Alexander's lake, from which a big supply will be taken by the Goodyear Mills company.

The case of Mike Taylor vs. Edward Demers, Goodyear men, was heard in the superior court at Putnam on Wednesday, as told in the Putnam news.

The trolley line from Providence to East Killingly is blocked once more, the cars running now only from Providence to Foster Center.

Miss Ada Buckley of Dayville was a visitor in Boston on Wednesday.

Mrs. Charles Ray, who was terribly wounded when she was attacked by the Victor Lipponen, the Brooklyn murderer, is steadily gaining in strength at her home in Brooklyn.

Danielson streets with water during Wednesday but the heavy coating of ice was not materially reduced by the day's thawing.

The republicans of Killingly will name their delegates today (Thursday) to the republican state convention to be held at New Haven within a few days. The New Haven convention will select delegates to the republican national convention to be held in Chicago.

### PUTNAM

At Wednesday's session of the superior court here, Judge George B. Hinman heard the case of Mike Taylor vs. Edward Demers, both of Goodyear. The plaintiff charged Demers with being responsible for a collision, September last, between an automobile owned and driven by Taylor and a motorcycle with sidecar, driven by Demers, and claimed damages for the injury of his car.

The crash came early one Saturday afternoon at the point where North street, at its westerly end, joins the highway to Goodyear, near Westfield cemetery.

Taylor, with Stanley Bush as his companion, were driving in the touring car from Danielson to Goodyear. Demers, with a companion who was riding in the sidecar, was coming toward Danielson.

The evidence of various witnesses was that Demers tried to drive his motorcycle past the touring car on the left side of the road and that this was the cause of the collision, which damaged the Taylor car about \$75.

Victor Schmidt and Robert Day, who came along in an automobile soon after the accident occurred, testified that the automobile was far over on the right side of the road and that the motorcycle that had plunged into it was on the left hand side of the road. C. H. Pellet of Danielson also testified as to coming along in one of his cars sometime after the accident and of noting the spot where the collision had taken place. The crash took place, he said, on the right hand side of the road. After a number of witnesses had been heard counsel on each side held a conference and a settlement was offered. Attorney Harry Back was counsel for Taylor, S. S. Russell and C. L. Torrey for Demers.

Regular firemen who discussed Wednesday the announcement that five resignations had been tendered to the No. 1 company, which would be filed this (Thursday) evening when the company meets to elect officers and that 20 associate members of the same company also would file their resignations said that no associate members would resign.

At last meeting Hose Company No. 1 voted to discontinue its associate membership list, so these men cannot resign from an organization to which they do not belong, said one of the regulars of the No. 1 company, who will remain. "They are as much out or the fire department now as they ever will be."

Deaths have occurred there from this disease within the past two weeks.

Republicans in Putnam and all the surrounding towns are interested in today's caucuses called to name delegates to the republican state convention to be held at New Haven to select the Connecticut delegation to the republican national convention to be held in Chicago.

William Stever, who has been overseer of the cloth department for the Grosvonts company, has resigned to take a position with the Beacon mills at New Bedford.

State Policemen Bridgeman and Stiles were in Putnam Wednesday on matters pertaining to their department.

The localing by the visiting nurse of two children whose father had not been combed for weeks and her successful efforts to provide, through arrangement, better conditions for these little people, is indicative of the value of the service that is being rendered by the nurse.

Rev. J. J. Elty, pastor of Holy Trinity church, Pomfret, who has been in the

## Cocoon Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, weakens the hair brittle, and is very harmful. Mulsified coconut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Mulsified coconut oil shampoo at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

## FOR LUMBAGO

Try Musterole. See How Quickly It Relieves

You just rub Musterole in briskly, and usually the pain is gone—a delicious, soothing comfort comes to take its place. Musterole is a clean, white ointment, made of oil of mustard. Use it instead of mustard plaster. Will not blister.

Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bite, colds of the chest. Always dependable.

30 and 60c jars; hospital size \$2.50.

Deaths have occurred there from this disease within the past two weeks.

**CARD OF THANKS.**  
Mr. and Mrs. Patrick Connelly, father and mother of Edward J. Connelly, and Thomas J. Connelly of Springfield, Mass., brothers and Mrs. Catherine Resurreux of West Haven, Conn., and Mrs. Margaret Sullivan, sisters of Sallie Patricia Connelly, thank their friends for the beautiful flowers and floral offerings sent by them upon her death, and her family take this means of expressing their appreciation of the help and kindness extended to them in their great bereavement by their many friends.

**MRS. LENA JOHNSON MAIN.**  
So swiftly her gentle spirit fled, hardly a warning was given, and those nearest and best loved were unable to reach her before the end came. She was a mother first of all, and the three children left will cherish a lasting memory of a kind and loving mother. Her friends were numbered by her acquaintances, and many acts of kindness were rendered to those in need of assistance and trouble. Those who knew her best knew her to be a faithful and helpful wife, and her place in the home will never be filled. She has passed on to that Great Beyond where there is no pain, no sorrow, but everlasting sunshine. May her soul rest in peace.

### Hairs Quickly Vanish

After This Treatment

(Helps to Beauty)

Science has aided in simplifying the banishing of hairy growth from the face, and according to a beauty specialist, the most effective treatment yet devised consists of applying a distinctive paste to the hairy surface for 2 or 3 minutes. The paste is made by mixing some water with a little powdered Jelatione. When this paste is removed and the skin washed every trace of hair has vanished. Be sure to get real Jelatione.
